

## Distance Learning Study Skills Support

### Additional Information

Distance Learning Study Skills Support has been set up to address some of the needs which have arisen due to the compulsory implementation of distance learning.

It gives pupils the possibility to receive help in managing and structuring their workload and daily routine.

It involves on line lessons with a teacher two or three times per week.

It is organised in response to a direct request from the parents and is available for all pupils from P1-P5.

Our aim is to help pupils become more confident and autonomous in their learning.
